

SENIOR TRANSIT OPERATIONS COORDINATOR

Purpose:

To actively support and uphold the City's stated mission and values. To administer, monitor, and review service contracts with private transit providers for local fixed routes, downtown and neighborhood circulators; coordinate planning and development of fixed routes and circulators; determine capital and operating asset needs; develop bus and other transit specifications as required; and ensure contract compliance and superior customer service through routine system monitoring and inspection.

Supervision Received and Exercised:

Receives general direction from the Transit Administrator and other management staff.

Exercises functional supervision over lower-level professional, administrative, technical and/or field staff. Exercises direct supervision over assigned temporary staff.

Examples of Duties:

This class specification is intended to indicate the basic nature of positions allocated to the class and examples of typical duties that may be assigned. It does not imply that all positions within the class perform all of the duties listed, nor does it necessarily list all possible duties that may be assigned.

Duties may include, but are not limited to, the following:

- Write, negotiate, administer, monitor and enforce service contracts with private transit providers for local fixed routes as well as downtown and neighborhood circulators; ensure contract compliance and superior customer service by fostering partnership as well as through routine system monitoring, auditing, performance analysis.
- Coordinate service and operational planning and development of fixed routes and circulators; determine capital and operating asset needs; prepare service implementation plans and cost estimates.

CITY OF TEMPE

Senior Transit Operations Coordinator (continued)

- Participate in the procurement including the research and development of specifications – for buses and coordinate procurement of other transit applications such as fare collection system, vehicle management systems, automatic passenger counting system, security camera system, and additional transit related components as necessary.
- Provide complex technical expertise and serve as project manager over professional consultants and transit service providers on a variety of transportation projects.
- Participate in contract management of transit bus maintenance through contract oversight and administration, and work directly with the Transportation Maintenance Supervisor to ensure proper preventive and corrective fleet maintenance.
- Coordinate and lead meetings as necessary with contracted private transit providers and other public agencies and city departments to address transit related issues, needs and improvements.
- Coordinate the compilation, preperation, and synthesis of transit operational data required for reports to the Transportation Commission, City Council, and local, regional, and federal databases.
- Conduct research and prepare a variety of reports and recommendations on transit issues including procurement, transit planning, operational coordination, cost analyses, and assist in the administration of a comprehensive transit/transportation planning program.
- Manage the city's compliance with Federal Transit Administration requirements.
- Participate in, and advocate for, Tempe's interests in regional studies, technical advisory groups, committees, and partners meetings on transit issues and projects.
- Lead the planning and operational phases of transit and park-and-ride shuttle operations in approximately twenty annual city events of varying size and complexity. Exercise functional supervision over both city and contractor staff as needed.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. The hiring department may include job related experience, training or license and certification preferences at the time of recruitment. A typical way to obtain the knowledge and abilities would be:

CITY OF TEMPE
